### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1,3,8,9,13 are rejected under 35 U.S.C. 102(e) as being anticipated by Tsuboi et al 6063393

Art Unit: 1615

Claims 1,3,6,8,9,11& 13 are rejected under 35 U.S.C. 102( e) as being anticipated by Bonora 5948836

Stabilized pesticides films (col. 1, top), of polyamide (col. 4, 3.) with carboxylic acid esters (col. 24, 10.) and glass (silica) fibres (col. 24, 12.) or asbestos, with pesticides of permethrin (col. 27,line 52-col. 28, line 5) are taught.

Applicant's arguments with respect to claim1-13

have been considered but are moot in view of the new ground(s) of rejection.

They were persuasive over the prior art rejections, now withdrawn.
